

WATER HYDRAULIC EQUIPMENT

The cost to operate and maintain high pressure water hydraulic pumps and valves can be very high due to issues stemming from the use of water as a hydraulic fluid. Our HYDROWATT Radial Pumps and Tiefenbach Control Valves are guaranteed to address these issues and increase the performance and reliability of your water hydraulic systems.

INDUSTRIES

PRIMARY METALS
(CAST AND ROLLED)

EXTRUSION / FORGING

NON-WOVEN
PRODUCTS MFG

ENGINEERED WOOD

RUBBER INDUSTRY

- Increase process precision and control
- Increase pump system availability
- Increase system reliability
- Simplify service
- Reduce wear parts and labour

PRODUCTS

- HYDROWATT Radial Piston Pumps
- Tiefenbach Water Hydraulic Controls

SERVICES

- Project Management
- Turnkey Systems
