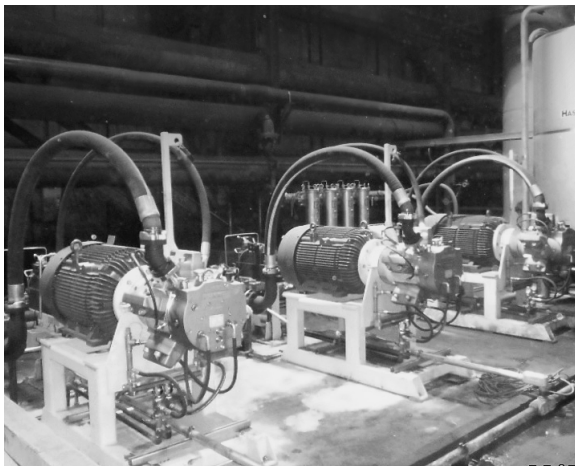
HASTEC
HEAVY-DUTY

DESCALE SYSTEMS AND EQUIPMENT

HASTEC offers a full complement of descaling equipment ranging from individual components to complete systems. Our product portfolio includes:



- High Pressure Descale Pump Systems featuring our **HYDROWATT** Radial Piston Pumps which are widely recognized for their reliability, simple design and ease of service.
- Descale Spray Headers utilizing the latest in spray nozzle technology to ensure the maximum descale impact is delivered to the product. Fixed and positionable headers are available as well quick change cartridge style designs.
- **HASTEC** Descale Valves featuring our own "ZERO-LEAK" cartridge technology.
- For those having quality or system performance problems, **HASTEC** also offers free System Performance Evaluations.
